Virtual Middle School Counseling Tier 1 How-to

Laura Ross
Lead School Counselor
Five Forks Middle School, Lawrenceville, GA
Thursday, April 23, 2020
Learning outcomes:

❖ After viewing this webinar you should be able to:
  ➢ Discuss best practices when working with middle school students and families in a virtual setting.
  ➢ Identify and locate various technology tools and resources to aid you in your virtual middle school counseling.
  ➢ Describe at least one lesson you can use when counseling your middle school students virtually.

Laura Ross
• 14th Year as a School Counselor
• 6th Year in Middle School
• GSCA Metro Director
• Counselors for Computing Consultant
• ASCA 2020 School Counselor of the Year

Five Forks Middle School
• Lawrenceville, Georgia
  • (Metro Atlanta Area)
    • 6th, 7th, 8th
    • 1275 Students
  ~ 40% Free/Reduced Lunch
  ~ 32% White
  ~ 28% Black
  ~ 19% Asian
  ~ 18% Latino
Direct Contact Students, Parents/Guardians

- How to use Google Meet
- Zoom tips, tricks and hidden features
- Creating a Google Voice number (With Google Voice, you can call or text parents/guardians and have them call you without sharing your personal phone number.)
- Talking Points (With Talking Points, you can text parents/guardians in English from your phone, but the text shows up on a parent/guardian’s phone in the language they speak and vice versa. Parents/guardians text in their language and it shows up in English on your phone. Your personal phone number is not shown.)

Why is Tier 1 important now?
Learning Platform for Lessons

Use a consistent platform to share your information, announcements, lessons, schoolwide events, etc., to stakeholders:

- Canvas
- Edmodo
- Website: Weebly/Wix/Squarespace. Choose what you are comfortable with. Some website platforms may feel easier to use than others.
- MyBlueprint
- Google Classroom

Lessons Ready to Use

Nearpod Teaching Tolerance Lessons:
- My Multicultural Self
- Exploring Identity
- The New Mad Men
- Responsibilities and Rights
- The Civil Rights Movement: A Time to Speak

Nearpod Common Sense Education Lessons:
- Ability
- Upstanders and Allies: Taking Action Against Cyberbullying
- Digital Life 101 Lite
- Self-Control and Shaming

Nearpod SEL Lessons:
- Effective Teamwork
- Mindful Breathing
- My Emotional Cup
- Children Just Like You
- Maintaining Emotional Wellness
- How to Address Stress
- Fitting In: How to Make Friends
- Resolving Conflicts
- Being On Time
- Putting a Stop to Bullying

You can create your own interactive lessons (either led live by the school counselor or student-paced lessons) in Nearpod as well. The lessons in the Nearpod library can also be edited to fit your students’ needs and time constraints. You also can embed the links to Nearpod lessons in your Google Classroom, websites, Edmodo, Canvas and other platforms.
Creating Your Own Lessons

What were you planning to teach and how can you share each part of the lesson virtually? If it is instruction provided by the school counselor in the lesson, consider the following:

- Videos: Consider creating videos for lessons, weekly greetings for students, schoolwide information that would normally be shared on announcements, and more. Record yourself and/or your screen on Zoom, Loom, WeVideo, Screencastify. You can create videos of pictures and slides in Adobe Spark Video or iMovie or cartoon videos in Powtoon. For example: Wellness Wednesday – Coping Strategy; Growth Mindset Moment – Tips on having a growth mindset; or try a Flash Forward Friday when you share vocabulary or information about postsecondary education.
- Videos should be short – 10 minutes max. If you have more to say, break it up in different videos with other activities in between. Record yourself and share your slides.
- Share a video from another source to begin the lesson focus/set the topic/etc.

Creating Your Own Lessons

If the lesson includes discussion, post a prompt or question on your digital platform using a link to:

- Padlet – You choose a template and background for your Padlet and post a question or prompt. Share the link to the Padlet with students. Students follow the link and add to the Padlet with a typed answer, picture, etc.
- Flipgrid – You post a topic, activity or question and share the link to your topic with students. Students follow the link and create a short video about the topic, answering the questions or doing the activity. Everyone can see each other’s videos. Educator’s Guide to Flipgrid.
- Discuss Post (If available on your platform, it allows students to respond to each other’s discussion posts), or a add a question or comment section on your platform.

Note: Some tools may allow students to share responses by typing an answer or by sharing pictures (hand-drawn or created on a device). If applicable, allow them to share in the way they feel most comfortable or have access to share.
Creating Your Own Lessons

Reading assignment

- Read to them on video and share via Google Doc (upload Word documents to Google so it’s easy to access).
- Use sites that have articles based on your topic such as Newsela.

Other Assignments

- Create a puzzle using vocabulary, pictures, etc. that allows students to practice with the content shared. You can use sites like puzzle.org to create interactive digital puzzles. Links can be shared or embedded into Google Classroom. Students do not need to print anything out; they can do the puzzle online.
- Allow students to share their work in a variety of ways (drawing, writing, etc.). They can “share” with you through Google or add it to a pre-set Google folder. Provide them the link to the folder.
- All lessons don’t necessarily have to have an activity separate from the discussion.
Creating Your Own Lessons

Pre-/post-test for the lesson

- Create questions in a Google Form (Using Google Forms) Share link to form with students to complete the form.
- Socrative, Polleverywhere, Kahoot

Lesson Directions

- Provide step-by-step instructions through the lesson with links via a post or Google doc. For example: In an eighth-grade virtual lesson, students first saw a Google Doc with directions and links to each step of their assignment:
  - Opening directions and introduction video (link to video in Google Drive)
  - Directions about reading selection and discussion posts (link to folder with the reading selections for students to choose from)
  - Link to discussion posts by class and directions about responding to peers’ discussion posts.
  - Directions and link to closing video.
- Example: FFMS 8th DLD - Diversity

- Roadtrip Nation
- Technolochicas

Texts

- Newsela Library Text Sets: College
- Newsela Library Text Sets: Careers
- Careers with STEM
Virtual Tours

- YouVisit
- Campus Tours

School Wide Events

- Use Flipgrid or Padlet for a week-long or month-long campaign around a topic or theme. Students can participate virtually by creating videos in Flipgrid or sharing words/pictures in Padlet.
- Example: Start with Hello Week: Have students create a Flipgrid video sharing how they would greet peers face to face and/or virtually. Example: Create an Empathy Word Wall: Have students add to a Padlet wall with phrases and statements or images with phrases they would say to peers to show empathy.
Sharing Information

- **Smore** – Allows you to create an online newsletter to share with teachers, families and students. Email the newsletter or share the link. Add titles, text, pictures, audio, video, etc.
- **Canva** – Allows you to create fliers, presentations, cards, posters, virtual backgrounds and infographics to share information, promote events or use in lessons.
